How should you tackle risks?
Under the umbrella of the Executive MBA in Management of Technology (MoT), jointly organized by UNIL-HEC and EPFL, you are invited to the “MoT Event” on: “Managing Risk of/for New Ventures”.

Risks are not always where you expect they are, and there are ways to avoid or limit them in real life and in new ventures. Be aware!
This hot topic will be addressed by high profile speakers both in Switzerland and in China.
Concrete venture projects will also be illustrated by MoT students.
It will take place at EPFL, auditorium CO1, on April 30 at 17:30.
